#### ABOUT ME

As a highly motivated software engineer, I am seeking a full-stack software engineering role that will allow me to leverage my strong analytical and problem-solving skills. I am passionate about staying up-to-date with the latest industry trends and using that knowledge to create innovative, user-friendly applications. My expertise includes developing web apps using JavaScript, React and Python, as well as implementing middle-tier and RESTful APIs. Additionally, I have experience in building and managing database systems using SQL/PostgreSQL, and deploying apps to the cloud through AWS.
